Open Data Initiatives

Mexican Government, in cooperation with the Center for Economic Research of Mexico are working on 'DataLab', an initiative that will couple and support research fellows and public institutions to work together in finding solutions to public problems through the use of data

Red México Conectado is a multi stakeholder mechanism to promote best practices, build capacities and enable the publication of open data from the local level in datos.gob.mx

In collaboration with the **GovLab**, the Government of Mexico developed the project <u>Open Data 100 MX</u>, the first mapping ever of companies using open data as a key input to generate economic and social value. More than 100 companies were identified, many of which are new businesses entirely based on open data, or that use open data as one of their core business proposals.

DEMOS and the UK Embassy in Mexico are working in '<u>Labora'</u>, a platform that supports for civic and social entrepreneurs by offering capacity building trainings, and catered mechanisms to connect them to a world class network of businesses, mentors and investors to accelerate impact through the use of open data in their products and services
