

FROM CITIZENS IDEAS TO SOCIETAL GROWTH

CARSTEN, MAGNICANE

#FABLA

& 9-1

HAN PHAM, YELLOW ONE NEEDLE CAP

MARIANNE, ACTIVITY MAT

ANDERS, RAIZER

What do these four people have in common?

They are value creators

**Creativity is not an exotic power
owned by people wearing funny
clothes...**

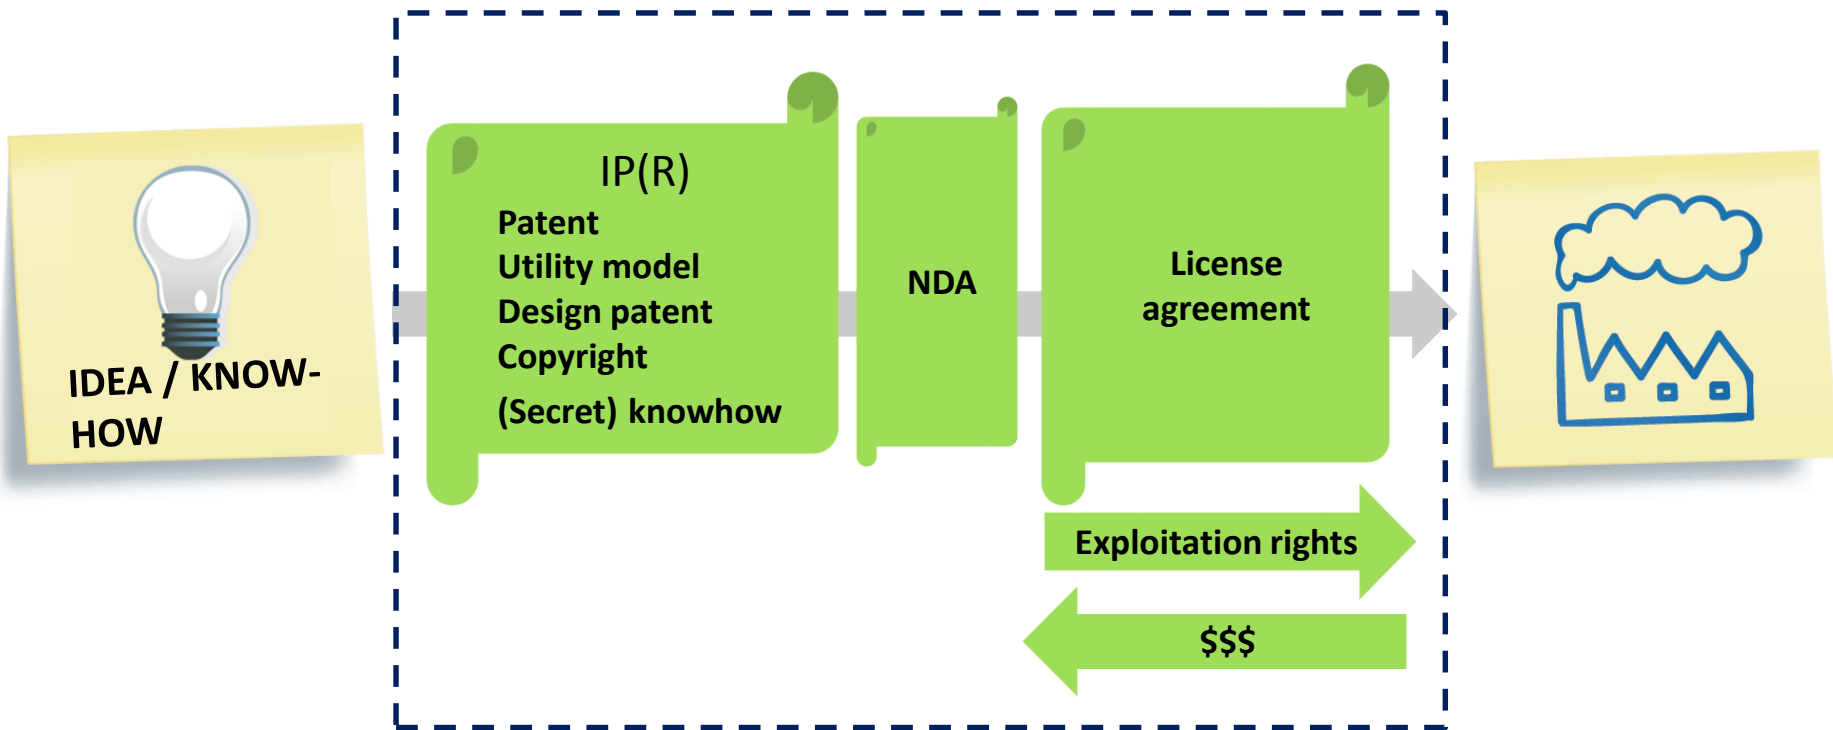

**Nations around the world are looking
for new ways to growth...**

Dear entrepreneurs, please help!

Entrepreneurs fail. A lot and too late...

The Inventor Advisory Service (IAS) is a publicly funded, danish innovation approach leveraging the potential of citizens ideas.

Licensing

A black and white photograph of Thomas Edison in his laboratory. He is wearing a dark suit and a bow tie, looking directly at the camera with a serious expression. He is holding a glass bulb with a filament inside. In the background, there are shelves filled with books and a window with a grid pattern. In the foreground, there are several light bulbs and electrical equipment on a table.

**GENIUS IS 1% INSPIRATION
99% PERSPIRATION**

**We help people through the
perspiration phase by offering
inventors access to advice, sparring
and mentoring**

A close-up photograph of a woman with light brown, wavy hair and wide, light blue eyes. She has a surprised or intense expression. A strip of pink tape is wrapped around her mouth, covering her lips. The background is dark and out of focus.

LESS TALK - MORE DOING!

Validation of ideas happen in reality through practical experimentation and perspiration. Build, test, break it, pivot, test again!

Citizens ideas create societal impact!

ACHIEVED THROUGH THREE INTERLINKED PROGRAMS

ADVISORY SERVICE FOR INVENTORS

Since 1972 we have run the public advisory service for inventors in Denmark. Each year we advise more than 5000 inventors and screen 1000 unique inventions. The advisory service helps inventors mature and commercialize their ideas through licensing and start-ups. We create 8-10 license agreements per year.

INVENTORS SCHOOL SERVICE

Since 2010 we have run an educational programme aimed at inspiring and training students in hands-on innovation. More than 2000 students a year enjoy our human-centered, idea-generating, practical, fail-fast, live prototyping and involving approach to innovation.

FABLAB TI

Opened in 2013, based on a long tradition of running a prototype workshop for inventors. FABLAB TI is now open to the public and is an integral part of the development of inventors ideas, commercialization of these ideas and the hands-on, design thinking-inspired training in our school service.
